Your Opportunity

IT HAS not been our custom in former sale catalogs to make reference to prevailing conditions or comment on the cattle to be sold. We started making our annual sales in 1900 with an average price on fifty head of $202. For the next ten years, our sale averages ranged from $200 to $418 with a general average for that period of about $300. During this time the herd made substantial profits.

From 1910 to 1915, there was a steady increase in demand at advancing values. The best offerings commanded an average price of $500 or more. During that five years, the good herds, well cared for, paid for substantial farm improvements and lifted many mortgages from the land.

From 1915 to 1920 is a period long to be remembered. Prices soared to a point where it was not advisable or consistent for a conservative breeder to purchase breeding cows to strengthen his herd. The same could be said of men starting new herds.

We have passed through two years of deflation and good Shorthorns from established herds are selling far below normal values.

History will repeat itself. The steady rise in values that is bound to follow, with the increase in numbers, where good care is given, will emphasize the fact that 1921 and 1922 were the opportune years to make sound investments in good breeding Shorthorns.

This is your opportunity. Make selections carefully, but buy cattle now. Prices will be higher next year.
